THRU : Planning and Review Staff, ORR
Acting Chief, Industrial Division, ORR

ORR Project No. 36.903, The Electric Wire and Cable Industry of
the Sino-Soviet Bloc.

25X1A9a

1. The accompanying memorandum by [REDACTED] Chief, Electrical Equipment Branch, summarizes quite capably the scope and limitations of this report. Representing our first basic research effort in this sector of the electrotechnical industry, this study is felt to have definite intelligence value for activities concerned with Soviet Bloc electrification and telecommunications programs, and with the development of production of electrical and electronic items both for civilian and military consumption.

25X1A9a

2. This project is the first submission of a basic research study by its author, [REDACTED]. It is considered a very creditable effort, meriting recommendation for publication as an RR.

3. In order to expedite editing, this report is forwarded presently omitting Appendix F, Source References. This appendix is currently being typed and will be attached within a few days to the copies submitted.
